

The **THERA WELLNESS™ Vitalyzer** checks for stressors in the energetic field including emotions.

It also searches through a vast database of vitamins, minerals, aminoacids, homeopathic remedies, phytotherapeutics, Bach flowers and others to offer recommendations.

In addition, it provides with information about foods that are recommended and that should be avoided.

**“The medicine of the future will be frequency medicine.”** – *Albert Einstein.*

This quote extends to prevention as well, as imbalances in the energetic field, if not dissolved, will in time manifest into the physical level.

The ideal wellness and vitality support.

# HERA WELLNESS™ VITALYZER

## Detect Imbalances Before They Manifest

Prevention and early detection are becoming increasingly important. Today's way of living, as well as nutrition and environmental pollution can significantly weaken the body.

Energetic disorders can develop slowly and without you noticing anything at all. The **HERA WELLNESS™ Vitalyzer** carries out a complete, bio-energetic check. It automatically scans and evaluates the frequency patterns of the entire body, including internal organs, bones and tissues down to the cell level.

## An innovative and time-effective energetic analysis.

The BodyBalanceCheck is a bio-energetic method that analyzes the entire state of the body through the use of a special headset.

In addition to existing imbalances, it is also possible to identify energetic disorders long before they manifest physically.

Comparative analysis allows keeping track of changes in the energetic status over time.

Within minutes you will have an overview of your energetic status. An automated report shows the areas of energetic imbalances and comes up with suggestions as to the possible energetic stressors.

The identified deviations are displayed visually and are listed according to priority.

In the case of detected disturbances, the **HERA WELLNESS™ Vitalyzer** provides suitable guidance for further action.

HERA WELLNESS™ is a non-medical device. The statements described on HERA WELLNESS™ website and other materials have not been evaluated by the Food And Drugs Administration. This device is not intended to diagnose, treat, cure, mitigate or prevent any disease or condition. If you have a medical condition, please consult an appropriate healthcare professional.
